

The University of Georgia

Name of the school

Name of the department

Research project application

Date:

1. Name of the research topic (project)*

** Note: A research topic (project) can be presented by an author or a group of authors for the purpose of creating monographs, scientific articles, textbooks, or new research (invention) in the field.*

2. The relevance of the research topic (project) and its positioning in the relevant field at the time of filling out the application*

** Note: Please list any publications related to the research topic (whether in Georgian / foreign refereed or non-refereed journals) published in the last 5 years, that you consider important.*

2. Purpose of the research topic (project)*

** Note: Please specify the anticipated scientific outcomes and the conditions for their theoretical and practical application (scientific publication, patent, project commercialization, etc.)*

3. Estimated plan-schedule for the implementation of the research topic (project)*

Project implementation plan schedule:

** Note: Indicate the duration of the project (for example, 1 year, 2-year, 3-year, or a longer term) and the time schedule for its implementation. In the case of a project of less than 3 years, additionally justify the scientific reasons for the short-term research project.*

4. Supervisor of research topic (project) and researchers*

** Note: In the list of project researchers, please include their relevant experience and any publications, monographs, or projects carried out so far related to the research topic or the relevant field (if applicable).*

5. Foreign researchers and partner institutions involved in the research topic (project)*

** Note: If you have foreign partners, researchers, or institutions involved in the research project, please provide their identity, title, and relevant experience related to the research topic.*

6. Doctoral students involved in the research topic (project) (if applicable)*

Note: If you have doctoral students involved in the research project, provide their names. If you do not currently have doctoral students involved in the project, please indicate if you intend to do so in the future.

Note: If necessary, it is possible to provide additional financing of the project (based on the submission of appropriate justification and documentation).
