## SCHOOL OF HEALTH SCIENCES AND PUBLIC HEALTH

### WHY THE UNIVERSITY OF GEORGIA

The University of Georgia is distinguished by the disciplined educational process and modern infrastructure, enabling its students to acquire quality education and practical skills. For this reason the University is in leading ranks of regional educational institutions and is well-known to be dedicated to professional and personal growth of every student. Thus the graduates of the University of Georgia always benefit from superior employment prospects.

Offering thought provoking and diverse set of disciplines, UG is the place where knowledge is created and acquired. The academic personnel of the University is staffed with highly qualified, well-experienced and creative professionals dedicated to teaching creatively and with enthusiasm, helping raise young professionals with demonstrated commitment to the public.

UG is proud of its diverse community with cross cultural awareness. Its multicultural environment shapes intelligent, educated individuals with human values capable to meet modern challenges. The objective of the University of Georgia, being one of the leading universities, is to encourage the personal development of each student and mold her/him as a highly qualifies professional. UG is always the right choice for those that seek to achieve great success in life.

The University of Georgia is located in the centre of the capital city of Georgia – Tbilisi, the city that lies in Eastern part of the country and is home to people of diverse cultural, ethnic and religious backgrounds. Georgia – a country of ancient cultural heritage that offers Caucasus mountain range, Black Sea coastline, curative climate, national parks and UNESCO heritage sites – will surprise and delight you at every turn.

## TAHREER ALWAN – BACHELOR PROGRAM STUDENT OF DENTISTRY

I chose the University of Georgia because I have ambition of being a Dentist and UG is where I am able to learn all the new trends in Dentistry. As a dentist, I had to choose the best and the best choice for me was the University of Georgia. It is also a multi-cultural platform where students from all over the world make up for an international community.

## SURGING GLOBAL DEMAND FOR EXPERTS IN HEALTH

The School of Health Sciences and Public Health of the University of Georgia was established with invaluable contribution of the world's leading healthcare experts. The study program was developed by local and foreign specialists, with participation of the International Union of American Health and of universities of Scranton, Central Florida and Tromso. The School is well known for the highest standards of teaching methods, modern infrastructure and a wide range of opportunities for students to undergo practice at the country's leading clinics. Therefore, the School of Health Sciences and Public Health of the University of Georgia is highly ranked locally, regionally and worldwide.

The School gives an opportunity to deliver teaching and research process using innovative methods and a wide range of options applying modern medicine into practice. The School is a member of European Public Health Association (EUPHA) as well as the Association of University Programs in Health Administration (AUPHA) and annually discusses achievements and successful practices at international forums.

Apart from the academic studies, scientific research is conducted in cooperation with the universities of New York and Tromso. The School actively conducts studies in research methodologies, seminars and scientific conferences in the field of public healthcare, thus remaining at the forefront of the latest scientific and medical advances.
